

	PRINCIPAL REDUCTION/MORTGAGE REINSTATEMENT TERM SHEET
PROGRAM OVERVIEW	<p>Homeowners who cannot achieve an affordable loss mitigation solution offered by their loan servicer may be eligible for a partial or full reinstatement of owed principal, interest, taxes, insurance, and homeowner association fees (PITIA) payments and/or a principal reduction to achieve an affordable monthly payment.</p> <p>Homeowners coming out of a mortgage forbearance agreement, as well as homeowners who were denied or missed the option to go into forbearance and who are considered delinquent may be eligible.</p> <p>The underlying mortgage issues are to be resolved in their entirety with no remaining delinquent amounts. In instances where the NYS HAF fund maximum benefit are insufficient to resolve the situation, homeowners can leverage HAF with other available funds, including personal financial resources.</p> <p>Applicants to this program will be assisted in working with their mortgage servicer to explore all available loss mitigation options in conjunction with an application for NYS HAF assistance. To be eligible for HAF assistance, applicants will be required to accept reasonable offers for loan workouts and modifications provided the offer conforms to federal and state investor and/or regulatory requirements.</p>
FORECLOSURE AND DISPLACEMENT RISK FACTOR	<p>Once mortgage foreclosure moratoria and mandatory forbearance periods expire, borrowers may be at risk, either because they were not placed in a forbearance agreement during the pandemic, because they had outstanding arrears prior to the pandemic and suffered a COVID hardship, and/or because the post-forbearance loss mitigation solution being offered by their mortgage holder or servicer isn't financially viable without additional economic relief.</p>
PROGRAM GOAL	<p>To provide financial assistance to Eligible Homeowners to cure defaults where loss mitigation is not a feasible option and to make mortgage payments affordable and sustainable, resulting in homeownership retention.</p>
TARGETED POPULATION	<p>Eligible Homeowners with mortgages exiting forbearance or delinquent.</p> <p>There is an estimated total of 2.4 million homeowners with mortgages, of which 860,000 have incomes at or below 100% of the Area Median Income (AMI). Recent data suggests that roughly nine and half percent (9.5%) of homeowners with mortgages are either delinquent or in forbearance. Included in this target population are seniors with reverse mortgages, for whom ninety percent (90%) are backed by the Federal Housing Administration (FHA), and who are most commonly living on fixed, low incomes.</p>

PRIORITIZATION	<p>Initially the program will be available exclusively to borrowers who earn less than one hundred percent (100%) of the AMI. Forty percent (40%) of program funds will be set aside for “Socially Disadvantaged Individuals and Vulnerable Populations” with household incomes at or below 100% AMI. The HAF definition of Socially Disadvantaged and Vulnerable Populations includes racial and ethnic minorities who have been subject to housing discrimination, senior citizens, individuals with disabilities, applicants with limited English proficiency and those who have limited access to web-based technology.</p> <p>Applicants will self-attest to their status as either a Socially Disadvantaged Individual or a Vulnerable Population member.</p>	
APPLICATION PERIOD	<p>The priority application period will remain open for a minimum of 30 days or until the program intervention is fully subscribed, whichever is later.</p>

	ARREARS SATISFACTION TERM SHEET
PROGRAM OVERVIEW	<p>Homeowners who do not have a mortgage but are delinquent on other housing obligations, such as property taxes, insurances, water and sewer charges, homeowner association and/or maintenance fees, seniors with reverse mortgages, or chattel loans and/or retail installment contracts, may be eligible for the Non-Mortgage Arrears Satisfaction Program.</p>
FORECLOSURE AND DISPLACEMENT RISK FACTOR	<p>Property tax foreclosures are mostly controlled by local county governments and move on a much faster timeline – roughly two to three (2-3) years, as compared with mortgage foreclosures, which in New York state can take as long as five (5) years. In addition, property tax delinquencies often lead to the levying of interest penalties and fees once a homeowner is three (3) months past due, often with very high penalty rates.</p> <p>Cooperative shareholders are at risk of displacement if they are delinquent on their maintenance fees. Limited-equity cooperative buildings are mostly in minority-majority neighborhoods and serve low-income households, based on regulatory requirements imposed as a condition of City or State government financing. Additionally, there are several non-limited-equity cooperatives throughout the State where low-income and minority households own. Under New York State law, cooperative and condominium boards may evict a shareholder for non-payment of maintenance through a Civil Court proceeding. Condominium homeowners are also at risk of displacement for non-payment of homeowner association fees (HOA). Homeowners with association fee delinquency could face civil lawsuits by the HOA, which could lead to judgments, wage garnishments or other collection activity, which could result in the homeowner being placed at risk of foreclosure.</p> <p>Financing options available to purchasers of manufactured homes, particularly in Manufactured Home Communities MHCs, often carry very high interest rates and are not regulated by state and federal mortgage banking regulators. Repossession and eviction of homes due to non-payment occur on an expedited timeline, through local town courts, sometimes in a matter of months. In most of these cases, borrowers are not represented by legal counsel.</p>
PROGRAM GOAL	To provide financial assistance to Eligible Homeowners to satisfy non-mortgage arrears, resulting in homeownership retention where it otherwise would not have been possible.
TARGETED POPULATION	Eligible applicants who are delinquent on their non-mortgage housing payments, such as property taxes, manufactured home loan payments (chattel or retail installment contracts), and outstanding HOA or condo association fees.

	FORWARD PAYMENT TERM SHEET
PROGRAM OVERVIEW	<p>The Forward Assistance Program is available to all eligible applicants participating in the Mortgage Reinstatement/ Principal Reduction or Non-Mortgage Arrears Satisfaction Programs and who are not able to afford their ongoing housing payment obligations due to the financial impacts of the pandemic. In cases where a homeowner is current on their housing debt but can demonstrate that they are currently unemployed or their benefits have been exhausted at the time of application, the homeowner may submit a stand-alone application for this program.</p>
FORECLOSURE AND DISPLACEMENT RISK FACTOR	<p>Economic recovery has been slower for low-income homeowners and those of Socially Disadvantaged Individuals. According to data compiled by the Economic Policy Institute in the 3rd Quarter of 2020, the unemployment rate in New York for White households was at ten percent (10%), while the unemployment rate for Black households was fourteen percent (14%), for Asian American/Pacific Islanders was at fifteen point eight percent (15.8%) and for Hispanic households was at nineteen point one percent (19.1%).</p> <p>Recent data shows the unemployment rate in New York at 7.7%. In addition, there are many pandemic impacted industries in New York where workers are experiencing higher than average continued unemployment rates.</p> <p>Many homeowners are maxing out on the eligible term of their unemployment income (UI) benefits and for those who have not regained full employment may not qualify for a loan modification or be able to pay their future housing obligations.</p>
PROGRAM GOAL	<p>To provide financial assistance to eligible applicants who cannot sustain their housing obligations. This program aims to help homeowners who are unemployed . The intent of this program is to give the additional time needed to find gainful re-employment or time to secure other income sources.</p>
TARGETED POPULATION	<p>State unemployment benefits, coupled with the additional weekly unemployment benefits provided by the United States Department of Labor (DOL), have allowed many low-income households to make ends meet, but those benefits are set to expire or max-out for many recipients in the fall of 2021. The State is committed to giving these homeowners additional time to recover from the income loss caused by the pandemic.</p>
